

Commissioning

Instrument Scientist:  
Franco Leone

Single object                      Echelle                      Fiber fed

Modes                                  Integral light mode or polarimetric mode

Spectral resolution:  
high res  
R=30000;45000;60000

low res

R=3000  
Spectral range  
388 - 725 nm

Full spectral coverage in one exposure, estimated efficiency (integral light mode)20%
